Bishop Bowman, senior bishop of married vesterday afternoon, to Miss the M. E. church, lectured in the Minnte Covington-a most estimable Methodist church last evening. The face of the venerable bishop was familiar to many of the audience, a tract of 160 acres of land to Puyallup | be having presided at the conference held in this city nine years ago. The subject of the lecture was "China," and he most graphically described the babits, customs and mode of life of the people of this most interesting country, and imparted to the audience a better idea of the character of the inhabitants of the "celestial Empire." The lecture abounded with personal experiences and observation, which showed the speaker to be a close observer of men and places, and a searcher after the true history and condition of these people. The bishop was listened to most attentively by the audience, which filled the hoges to its numest espacity.

SALINA'S NEW RAILROADS The Coming of the Chleago and Rock Island and the Santa Fe a Fixed

Two powerful and rival railroad corporations have concluded at last that it is to their interest to build into Salina. They are respectively the and accidents of all kind; also croup, Chicago & Rock Island and the Santa Fe railroads. Salina already has two great trunk lines : the Union Pacific and the Missouri Pacific. She help indersing the work. has the Salina, Lincoln & Westernnow being built off to the northwest; and the Salina and Southwesternnow being extended towards the Indian territory. With the opening of Barton Fla. Mr. Allison writes that ed was a very estimable lady, and her spring the great 'Frisco system will She leaves a sorrowing husband and southeast-bonds having already been voted to that road. No wonder, then, that the two great roads mentioned above are auxious to connect with Salina, and compete for the great carrying trade which is being developed. The Chicago & Rock Island is purely a Chicago road, and the Chicago market is what this pecple long have sought, and mourned because they found it not. The Sauta Fe is also building a line into Chicago-hence we shall have a second connection with that desirable market; and should the Missouri Pacific also carry out its rumored plan, we shall have still a third connection with Chicago, With St. Louis, as is well-known, we are "well-connected" by the Massouri Pacific, and will be again by the 'Frisco. To the southern seaboard the 'Frisco, Missouri Pacific and Santa Fe will give us an outlet. And by nearly all our lines of road, we shall connect with Color- o'clock at the residence of Rev.
